Who are we?

We are your one-stop partner for IT, Telecommunication & Hospitality solutions.

ITSthe1 was formed in the USA in 1999, while the Dubai office was established in 2003

ITSthe1 head office is located in Al Barsha, Dubai. A research & Development office is in Sri Lanka. ITSthe1 has its focus on several areas of Consultancy services & Solutions.

What is Digital Signage?

Major benefits of digital signs over traditional static signs is the fact, that the content can be changed instantly, at any scheduled times, as often as necessary, without effort. Digital signage can be displayed on any size screen, in elevators, in public areas, on totems, on video walls or projectors. The content displayed on digital signage screens can range from simple text, images, full-motion video, graphic animations, live TV feeds, webpages, social media, with or without audio.

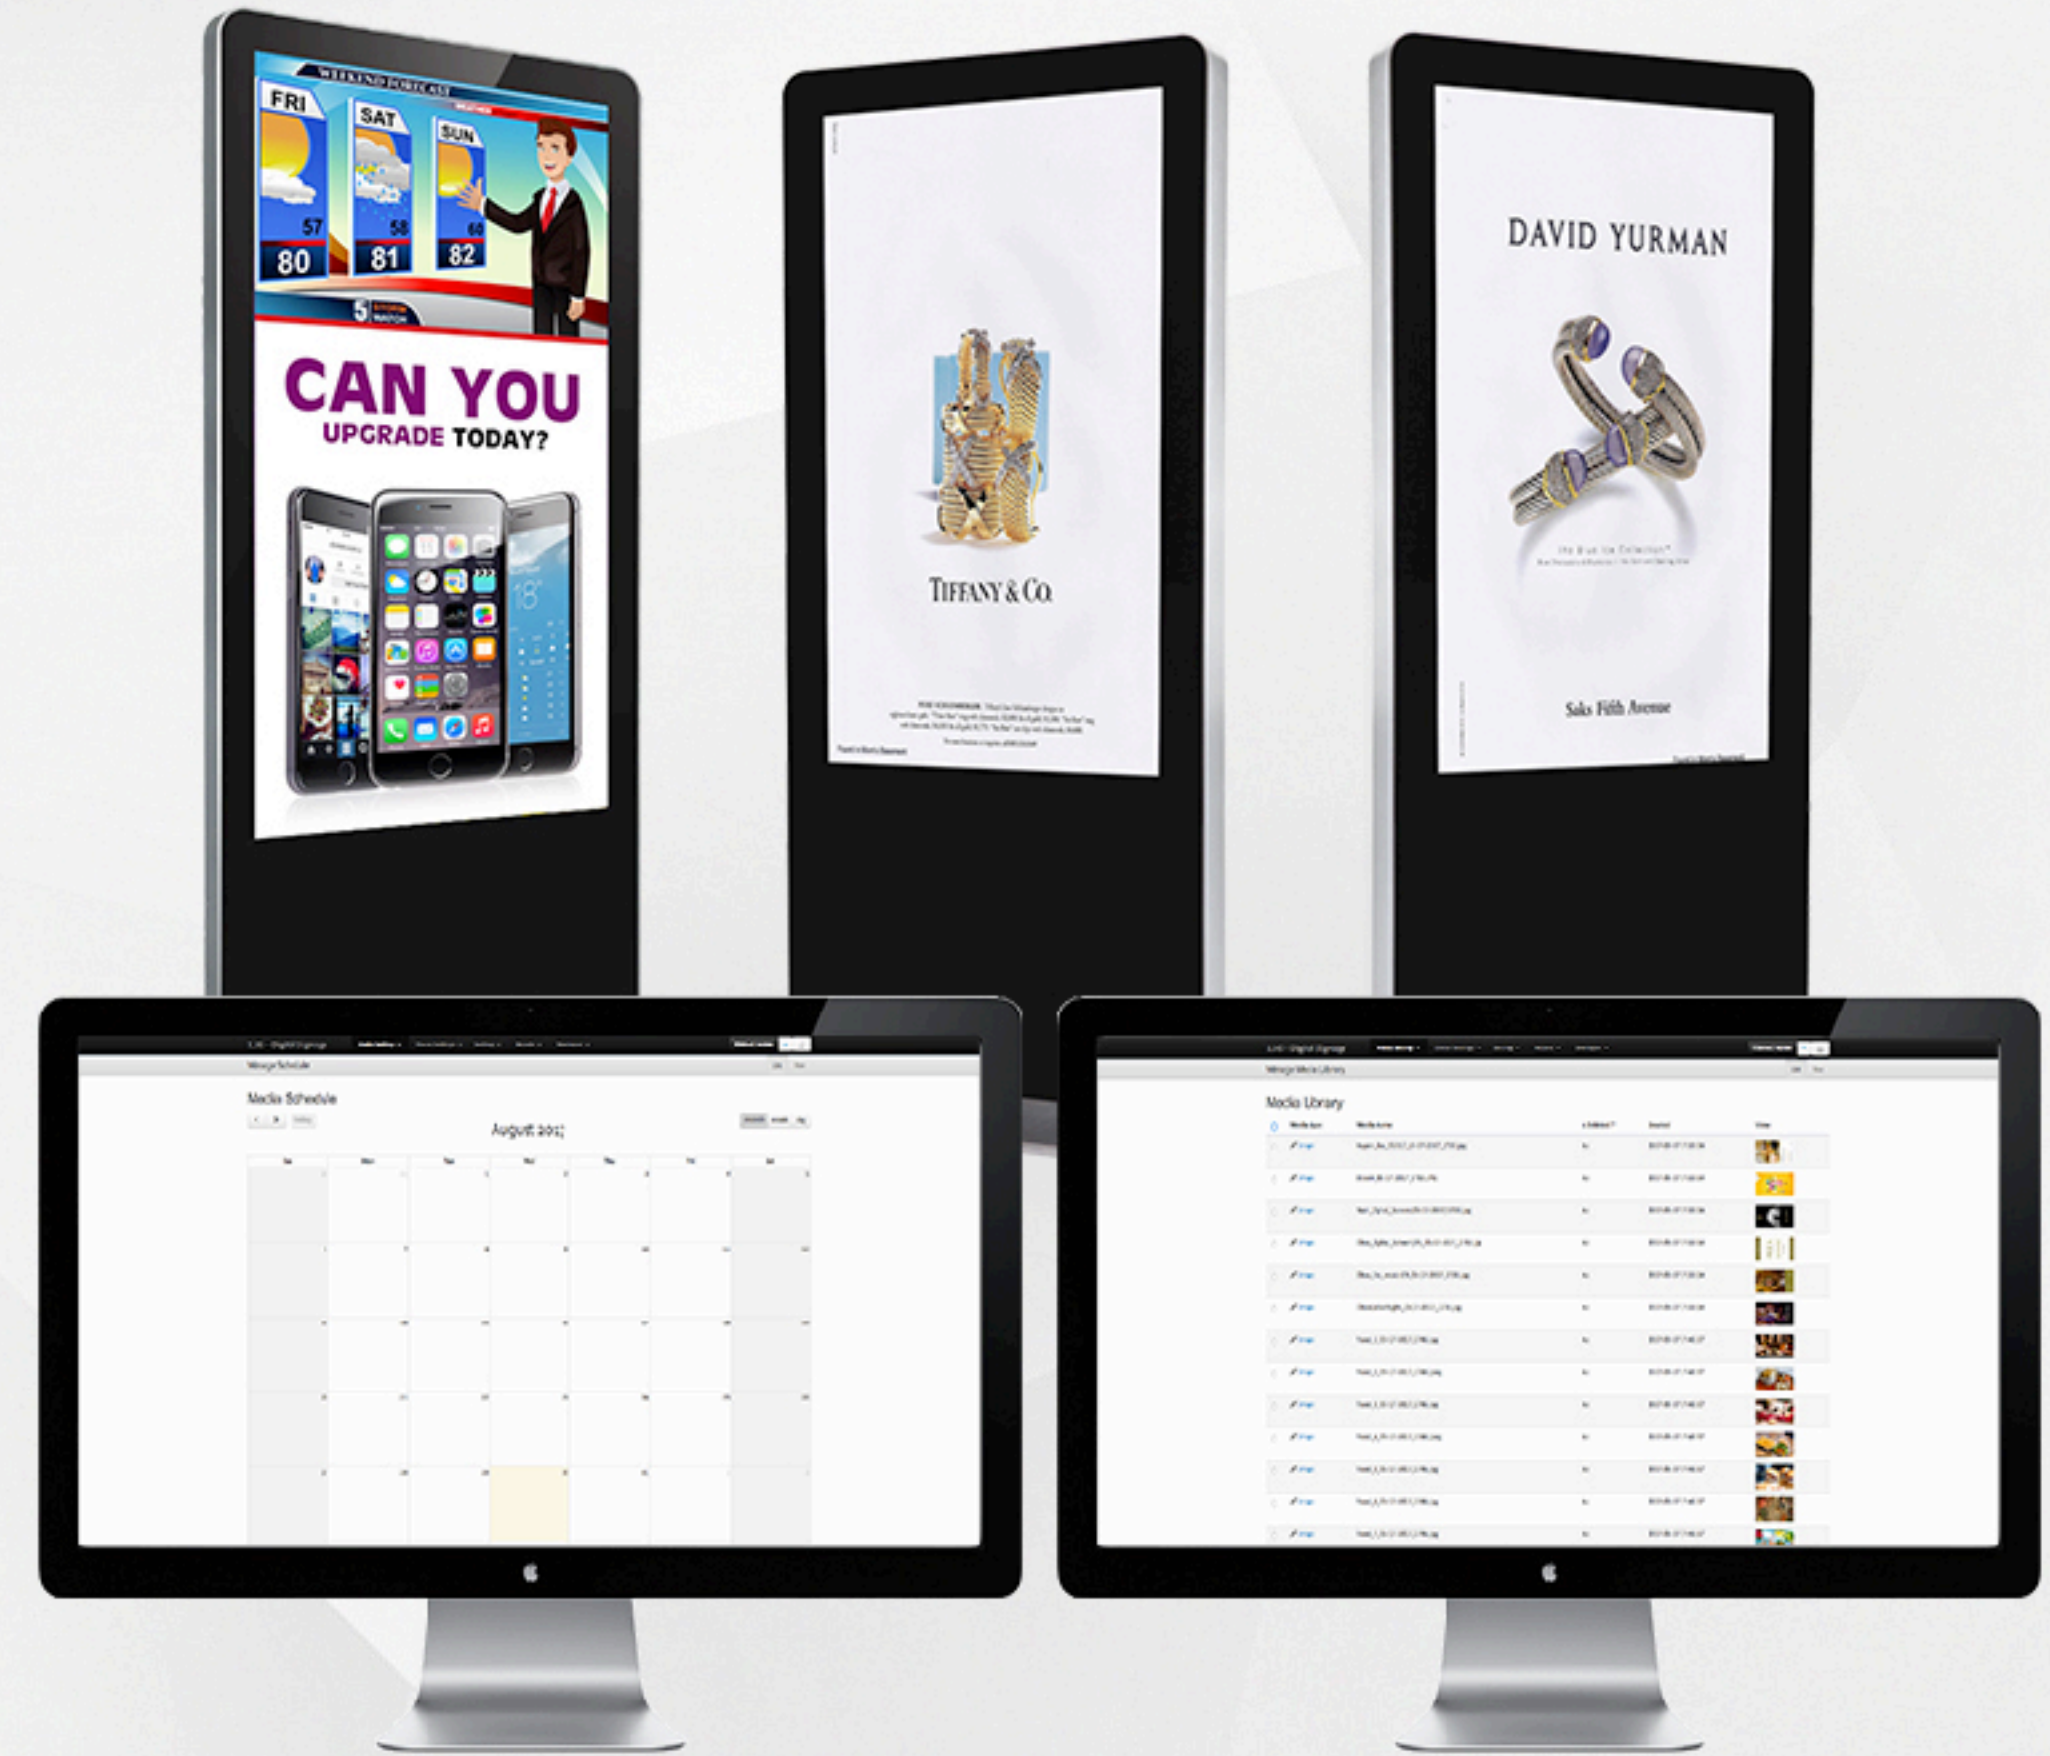

With digital signage hotels can create eye pleasing infotainment solutions and increase revenue streams.

1.DS Digital Signage Solution

1.DS offers a complete and proven digital signage solution for Public Areas, Restaurants, Elevators and Meeting, either Indoors or Outdoors. 1.Ds can be used in Hotels, Hospitals, Airports, Restaurants, Banks, Schools and Shopping Malls.
